About This Game

Dimension Drifter is a fast paced, ultra-violent action shooter.

Our timeline has collapsed and many didn't even notice. Since then, inexplicable mysteries started happening all over the world. Strange sightings of objects and beings. Crop circles appeared. Cattle mutilation. Memories that didn't reflect reality anymore. The list gets longer every day...

All of this was just the beginning. Since then, hundreds of years have passed. It all spiraled out of control. One day, strange portals to another dimension have opened and Demons poured out. An endless war began. Some cities have created plasma domes around them, protecting them from the eternal onslaught. But most now lie in ruins.

Some extraordinary people who were able to survive long enough in the ruins have harnessed special abilities. In the eye of the public, these powers are deemed evil and it is said they are of demonic nature. These special people are outcasts, not allowed to enter the Domes of safety anymore. They are called Drifters.

Features

- Super fluid action gameplay. Tight controls compared with animation cancelling actions make you feel in absolute control 100% of the time.
- Brutal Action combined with a deep Pen&Paper RPG world. The World of Dimension Drifter has been created over a period of 15 years as a Pen&Paper RPG foundation. Reveal more and more about the world as you progress through the missions.
- Endless levels that are randomly arranged each time you play. But robots can't design intuitive maps. As a modern mapper for the original Doom, I've added certain intelligence to the level creation to make it feel as humanly crafted as possible. Each room piece is also designed by hand to give everything you see a manmade feel.
- Thousands of randomized progression items. Like in Diablo and other loot-oriented games, the game offers almost endless combinations of items you can find to improve your Drifter.
- Visual character customization is also a great aspect of the game design. Choose between Male or Female Drifter and have a lot of outfits to mix and match, with tons of colors to choose for each piece. I want the Drifter to be YOUR OWN! However, during the very early Early Access time, this content may be limited to only a few options.

Nice concept of a tower defense. Shame it only comes with 5 maps (15 to 20 short waves each), which they dare call a campaign! And 5 challenges.... Content wise not worth the full price by far. I had a 90% off coupon, still wondering if I should have bought at that price.. As an Indonesian, these illustration made me so happy because all stuff that had done there are actually just like my daily lives environment. With a great family, joyness, kindness, and rural atmosphere made me smiling for every illustration. So recommend it for you want to enjoy some good pictures of rural and sibling environment. :). Just completed the first testing facility and want to share some early thoughts.

If you like **Super Meat Boy**, then you are likely to love this one too. These two have many similarities (in a good way), but **Pivot Pilot** adds refreshing unique gameplay elements, as the title suggests. In addition to the player character, you control a robotic arm by rotating each of its three segments. The robotic arm is used to transport the player character to otherwise unreachable places where he can hit switches and such. Levels are finished by navigating the tip of the arm to the goal. Don't be fooled, it is not as easy as it sounds. Concentration is required to pass the puzzles.

The level design is clever and provides a real challenge with equal satisfaction. Sometimes you really need to rush and get that jumping sequence perfectly executed. There is no blaming the controls: you died - your fault.

And speaking of dying, that is going to happen often. Luckily, the soundtrack is so amazing that it will distract you from getting too frustrated. You might as well just hand out the award for the best video game soundtrack of 2017 already. The graphical style is also spot on.

No reason why this game shouldn't be a great hit.. A great time killer, had a blast playing it. A throwback to some older games from the same genre. I hope you'll add new levels in the near future.. I really loved the concept of this game and the amazing and relaxing soundtrack. Buy it!. бля, чуть не абасрался. This is a quite good little roguelike; deep enough to provide for actual replayability (as opposed to getting bored on your first couple playthroughs), with some interesting but predictable story elements. You don't have the range of actions one of the old school deeper roguelikes gave you, but if you ever played one of the older CGA/EGA tile based adventure games (such as Ranadinn), this is a bit like that, mixed with some Nuclear Throne and some modern roguelike elements.. This game has become one of my favorite games to date, to be completely honest with you. I hope so much the developer continues work on this game. It's addictive, fast-paced, and rewarding once you finally get far enough to "become devil". It's worth playing.. Have yet to play the game, and did not read the Store page. But I figured: how poor could the value be, when you buy a game and its soundtrack for a grand total of a dollar? Well, brace yourself, kiddies:

It's one track. Which lasts a minute and eighteen seconds.

I hope you've learned your lesson, rjmacready. No more soundtracks for you, unless you're gonna commit LESS than a minute and eighteen seconds of your stupid \u2665\u2665\u2665ing life to seeing how many tracks you're actually getting for your hard-earned fifty cents.

And the \u2665\u2665\u2665wit of the Year award goes to...

Verdict: 1V10 (hey, it's a pretty **GOOD** minute and eighteen seconds, even if it ends abruptly and lacks the common courtesy to fade out smoothly at the end).. I started off absolutely hating it. But once I accepted that this is not a Disc golf simulator, it became much more enjoyable.

So this is not a real disc golf experience by any stretch of the imagination.

However, what it is, is mostly consistent.

Basically, you can control the speed but it's 10x the force you put into it.

You can also hyzer it, kind of, but it's a wierd kind of hyzer.

You can back hand it and you can fade the heck out of it IF you choose the "Curve" disc.

There are some physics defying flight paths that sometimes occur but they were not very common.

Not a ton of variaty but whats there is pretty unique.

I bought this for fun and was not disappointed first time they invaded spain was mostly under one ruler boy did he get a surprise even though i had to decide more carefully my battles the ai just sent wave after wave against the aztecs and it was fun to see them being cannon fodder while i was left unharmed, it ended only when someone convinced him that jesus was more cooler then his pagan gods i have to say if bored with your usual play through then give this dlc a try you may be surprised to see what happens.. u need to play normal game and siege noone plays the rest. First review ever:

Recommendated, but only if you want minimual content and no Dev. communication or updates.

Minigolf Mania has the best `feel' of any minigolf game on Steam. It's very simple, and the TALENTED Devs do a great job in making the game play and feel easy to pick up and enjoy. These guys know how to make a quality simple game.

Sadly just like No Man Sky, these developers have zero communication with the buyers of this game. They promise upgardes soon, and never deliver. Seems like they simply: do... not... care. A hole\level creator could give the community a great tool to expand this game (and have others to increase sales), but it has never been released.

No multiplayer, but co-op. and the worst thing: JUST NINE HOLES!

To sum-up. Fantastic potential, zero updates for almost half a year. NO COMMUNICATION. Many buyers of this game feel slighted as well as believe that this has been bandoned. I hope not!

PS: So if 3 dollars is okay for 9 holes, I reccomend it, but just nine holes... I am going to say- No. Sorry, cause the engine and working of MiniGolf Mania are wonderful!. The pack that I've always dreamed about!. I like this song and a story
